Safety & Peace of Mind...

...with Kane-May Gas Analyzers.

Quickly and accurately measure CO and other toxic gas levels in residential furnaces, light commercial boilers and ambient air.

SGA's are available to measure:

- Carbon Monoxide (CO)
- Nitric Oxide (NO)
- Nitrogen Dioxide (NO₂)
- Sulfur Dioxide (SO₂)

All SGA models feature:

- Easy-to-use battery-powered display
- Easy, one-button operation
- Extended battery life with standby switch.

UEI offers the entire range of portable Kane-May combustion gas analyzers - from Single Gas Analyzers to the multi-gas Quintox. Send or call for free brochure.

UEI 1-503-844-8723.

Kane-May & UEI • Your best value in portable gas analyzers.
